Highlights

- 1** Quality Improvement Plan
- 2** State of the Nation Report
- 3** Upcoming Publications
- 4** Quarterly Clinical Performance Indicator Report

Quality Improvement Plan

Our Quality Improvement Plan defines 10 key performance indicators for the NAOpri.

These are mapped to five overarching quality improvement goals based on national guidelines and standards for primary breast cancer care.

These performance indicators will be used to monitor progress towards quality improvement goals and to stimulate improvements in primary breast cancer care in England and Wales.

The NAOpri Quality Improvement (QI) Plan is now published and can be accessed [HERE](#).

State of the Nation Report

The first NAOpri State of the Nation (SotN) report and supplementary materials are now available [HERE](#).

This includes:

- National data for key performance indicators for primary breast cancer care.
- A data viewer with break down of individual results for each NHS breast unit.
- Recommendations and a local action plan for quality improvement in your organisation based on the above.

Upcoming Publications

Next Quarterly Reports:
January 2025
April 2025

State of the Nation Report:
September 2025 (TBC)

First Quarterly Clinical Performance Indicator Report

The first NAOpri Quarterly Clinical Indicator Performance Report was published on 10th October 2024.

Access results for your NHS organisation including:

- Data completeness on key data items.
- Patient characteristics for people with primary breast cancer.
- Three key performance indicators for: i) Clinical Nurse Specialist contact, ii) receipt of primary breast cancer surgery within 12 months of diagnosis, and iii) immediate reconstruction following mastectomy.

You can access the Quarterly Report [HERE](#).
