Want to find out more?

The NNHLA is part of the National Cancer Audit Collaborating Centre (NATCAN). If you want to find out more about NATCAN visit our [new website](#). If you would like to receive regular updates send us an email NATCAN@rcseng.ac.uk

NNHLA contributes to British Society for Haematology (BSH) 66th Annual Scientific Meeting

We were very pleased to be invited to contribute to this year's Annual Scientific Meeting, which took place in Liverpool, between the 19th and the 21st of April.

It was a great opportunity for members of NNHLA's project team to meet people from all over the country, with an shared interest in Haematology and improving care for patients.

Our thanks to everyone who took the time to visit our exhibitors stand - it was very helpful to make new connections.

Congratulations to our colleagues at the British Society for Haematology for delivering another successful event.

Exploring the data dashboards

The NNHLA interactive dashboard provides access to quarterly reports and State of the Nation analysis — covering performance indicators and data quality metrics — allowing users to monitor trends, benchmark against peers, and download data and reports in one accessible platform. In this poster, we demonstrate how to navigate the dashboard and highlight its core features.

1 Navigation
Use the left-hand sidebar to move between different sections.

2 Selection Panel
Filter results by organisation level, healthcare provider, and metric of interest from dropdown menus.

Quarterly Report - Performance Indicators

Select organisation level: Cancer alliance | Select organisation: Cheshire and Merseyside Cancer Alliance

Select metric: People discussed at a multidisciplinary team (MDT) meeting within 4 weeks of diagnosis (all)

3 Detail Tabs
Switch between tabs to access results, indicator details, and methodology.

4 Interactive Charts
Results are displayed using interactive charts, allowing you to:

- ✓ Hover over data points to reveal exact values
- ✓ Zoom in to focus on specific time periods
- ✓ Click the legend to show or hide individual elements

5 Data Table
Underneath the charts, data tables present key statistics — enabling comparison and quick review.

6 Report & Data Downloads
Reports and data can be downloaded for any healthcare provider across all metrics. Multiple export formats are supported to enable flexible sharing. You can find the download section on the navigation sidebar.

Data Dashboards update published!

A further update to our interactive Data Dashboards was published on the 9th of April 2026.

We publish Cancer Alliance and trust-level information on a quarterly basis (for England only at present), to support providers in monitoring their performance.

Access the NNHLA data dashboard [here](#).

The National Non-Hodgkin Lymphoma Audit; what we do.

The [National Non-Hodgkin Lymphoma Audit \(NNHLA\)](#) evaluates the patterns of care and outcomes for people diagnosed with non-Hodgkin lymphoma in England and Wales and supports services to improve quality of care for these patients.

The NNHLA uses key performance indicators to monitor progress against the audit's healthcare improvement goals, further details of which can be found in the audit's [Quality Improvement Plan](#).

We report our results in a number of ways primarily through:

- An annually produced State of the Nation report and State of the Nation data dashboard
- Quarterly produced data dashboards (currently for England only).
